Foxhole Consulting is a minority-owned, veteran-operated small business in North Carolina. Our service lines include Safety & Security utilizing AI, Rising Threat Assessments and Cyber Simulations. We offer a training catalog that complements our service lines.

Core Competencies	Past Performance
<p>Onsite security is our primary mission. We combine traditional security assessments with innovative technologies like AI gun detection and predictive analytics for surveillance systems.</p> <ul style="list-style-type: none"> • Emergency Preparedness • Risk Mitigation • Threat Assessment • Cyber Simulations 	<p>Onslow County School District needed security assessments on 62 schools. The project kicked off with a cross-functional group representing different departments at the district level. Together, we clarified priorities, identified concerns and constraints. We reviewed policies, plans, and procedures before assessing the individual schools.</p> <p>The objective at the school level was to look at the alignment between the district’s expectations and each school’s adherence to them. We walked each of the 62 schools, looking for vulnerabilities and gaps. After all the schools were assessed, a report compiled actionable insights and identified immediate changes that were needed to keep the facilities safe. At a final meeting with the district team, the report was discussed and reviewed. The 6-month project was completed on time and budget.</p>
Differentiators	
<p>Foxhole Consulting has a future-forward approach and a commitment to innovation. Our culture is defined by the exploration of tools and technologies that improve our services and minimize loss of life and property. Our CEO holds an active TS/TSI clearance and has an M.S. in Homeland Security, Emergency, and Disaster Management. His experience in protecting critical infrastructure, directing rapid response, and handling logistics is the result of 7 combat tours.</p> <p>Our leadership team is lean and nimble, fortified with partnerships and a professional bench. We work with KEJI services, a minority-woman-owned firm operating in a Hub Zone to expand our capabilities. Our mission is to learn and grow, leading with integrity, confidence, and humility.</p>
